PROJECTS AND INDUSTRY INVOLVEMENT

Cloud-Based Speedrun Data Pipeline (Python, GCP, BigQuery, Cloud Storage, SQL)

- Developed a Python ETL pipeline to ingest and process 15,000+ Speedrun.com JSON records into structured Google BigQuery tables via daily automated cron jobs.
- Programmed Python validation scripts to automate schema normalization, eliminating 90% of manual data cleaning and staging raw files in Google Cloud Storage.
- Authored SQL analytical queries in BigQuery to analyze multi-year trends across 5+ gaming platforms, mapping shifts in runner behavior and category popularity.

Speedrun.com Data Export Tool (Python, Tableau)

- Developed a Python API wrapper using the requests library to fetch leaderboard data, timing methods, and platform splits from Speedrun.com's public endpoints.
- Automated data collection with Python scripts, shrinking a manual 20-minute export process down to a sub-30-second execution loop for instant CSV/JSON generation.
- Designed a Tableau dashboard pipeline that ingests structured Python exports to generate real-time player performance visualizations.

Interactive Reaction Tester Developer & Data Architect (Python, SQL, PostgreSQL (Supabase), TypeScript)

- Engineered a TypeScript web app to capture and store millisecond-precise user reaction times to simulated gaming scenarios.
- Architected a PostgreSQL database on Supabase using sequential BIGINT indexing for fast queries and UUID configurations for secure user authentication.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Next Play Nation Basketball

Arlington, TX

Sports Data Analyst Volunteer

October 2025-January 2026

- Created custom macros using LibreOffice Basic to increase accuracy of score maintenance by over 40%.
- Constructed tailor made functions in LibreOffice Calc to enhance data accuracy by 24%.

EDUCATION

University of Texas at Arlington

Arlington, TX

Bachelor's of Science in Computer Science, GPA: 3.28/4.0

August, 2024

Relevant Coursework: Algorithms & Data Structures, Database Systems and File Structures, Artificial Intelligence

WORK EXPERIENCE

Insight

Fort worth, TX

Service Technician

April 2026 – Present

- Championed quality control initiatives by updating critical documentation, reducing operational errors for the client by over 50%.
- Developed custom Excel scripting to manage, filter, and track real-time completion states for daily order queues, increasing overall team throughput.

Hub Financial

Irving, TX

Commercial Tracking Analyst

September 2025 – April 2026

- Developed an Excel tracking architecture to capture and analyze document processing times, establishing the team's baseline key performance indicators (KPIs).
- Authored detailed technical feedback summaries for the Learning & Development (L&D) team, standardizing training documentation to streamline the on-boarding pipeline.

SKILLS

Languages: Spanish(Fluent) and English(Fluent)

Skills: Python | SQL/SQLite | PostgreSQL(Supabase)| Data visualization (Tableau, Power BI) | GCP (BigQuery, Cloud Storage) | Git | Machine Learning | Microsoft Office Suite (Excel, PowerPoint) | Linux | SAP | JSON Processing

Soft Skills: Communication, Collaboration, Fast-Learner, Problem-Solving, Leadership, Teaching
